## Thorne - Son Of Slaves (Ep.2) Key

Download ->->-> [DOWNLOAD](#)

## About This Game

### Presentation

Thorne: Tales of The Crow is a character-driven, episodic RPG developed by a Brazilian Indie company. Each episode tells a different tale of Thorne, an infamous mercenary known as The Crow. This is the second episode, released after [Thorne - Dearth Merchants](#).

### Story

Thorne is anxious to leave the Duchy of Calida. It is known as a peaceful place in Rowen, where order prevails. For those with an eye for reality, that is simply not true.

The Crow has to finish one last contract for the Duke before he can finally leave. Such contract will put him in a dangerou road with no turning back.

---

## Features

- Find the truth about Calida.
- Fight against evil fiends born from human's cruelty.
- Discover long lost treasures.
- Be "The Crow"

I had it custom made to myself. You're holding an unique weapon in your hands, Crow. I think it will help in your... well, adventures.

Thorne  
Sloat... I really wish there was another way...

Thorne  
Sloat... I really wish there was another way...

This is episode 2 of the Thorne saga. I don't know if there will be more volumes after. Anyway, the combat is still interesting (and somewhat tricky to get the hang of). The story is still about cleaning up old scores, and getting paid for it. That said, the Crow again finds himself dragged into a bigger tale than he expected.

Fun game, and well worth the price. (Especially if you get it on discount. I think I got both chapters for about \$1.). Nice continuation from Ep1, new weapon to use and some sidequest :) Also the music is great as in the first one. I hope someday there will be an Ep3.

9V10. didnt like it. Nice continuation from Ep1, new weapon to use and some sidequest :) Also the music is great as in the first one. I hope someday there will be an Ep3.

9V10. although less intriguing then death merchant , the second episode's story still entertains and it's capable of some cool moments.

that being said, the combat mechanics, though good and fascinating in theory, should be seriously optimized.

if it is not enough to be declared a masterpiece or a must-buy, if the game was redefined in the mechanic's system and if they added more detailed dialogues, this game could even aim to the top.

A shame, but still good enough to be purchased, if one is a fan of a pixelated action gdr with a little of tactic.. \udb40\udc21. I bought it with a coupon but I think it's worth the money anyway !

+ Steam trading cards. Just finished the second part of this game. Lagging is still a small problem esp. when waiting for game to load from a scene eg when you leave an area. Overall game is great. Love the ongoing story and the introduction of new characters. As usual a player must take note of all hints given in the game to be able to achieve all quests etc. There are many secret quests hidden in the game as well as some puzzles to work out. If you enjoyed the first game, then this game is for you..
